CHALLA KRUPA SATYA PAUL

Mylavaram, Vijayawada | ckrupasatyapaul22@gmail.com | +91 8464022672 | GitHub

Information Technology undergraduate with strong hands-on knowledge of SQL, MySQL, DBMS, database design, complex queries, joins, subqueries, aggregations, window functions, and query optimization. Experienced in developing backend applications and working with databases through API-driven applications. Strong foundation in data structures, programming, and problem-solving, seeking an Advanced SQL Developer role to apply database development and analytical SQL skills.

EDUCATION

Bachelor of Technology in Information Technology
Gayatri Vidya Parishad College of Engineering,Visakhapatnam India *CGPA: 8.51*

Diploma in Computer Engineering
A.A.N.M. & V.V.R.S.R. Polytechnic, Gudlavalleru, India *Percentage: 93.63%*

SKILLS

- **Database & SQL:** SQL, MySQL, Advanced SQL, Joins, Subqueries, Views, Stored Procedures, Functions, Window Functions, Aggregations, Indexing, Transactions, Normalization, Query Optimization
- **Programming:** Java, Python, JavaScript
- **Backend & APIs:** Node.js, Express.js, REST APIs
- **Core CS:** DBMS, OOP, Data Structures & Algorithms, Operating Systems, Computer Networks
- **Tools:** Git, MySQL Workbench, Cisco Packet Tracer, VMware

WORK EXPERIENCE

Full Stack Development Intern | BOBROS Consultancy Services Pvt. Ltd. *May 2026 – Jul 2026*

- Developed responsive web applications using HTML, CSS, and JavaScript.
- Designed and queried relational database tables using MySQL, implementing joins, filtering, aggregation, and CRUD operations for application data.
- Built and integrated REST APIs for efficient client-server data exchange.
- Used Git and Postman for version control, API testing, and debugging.

PROJECTS

NearByMe | Local Product Discovery Platform *Web Application*

- Designed a relational MySQL database for users, stores, products, and inventory using normalization, keys, constraints, and indexing.
- Developed complex SQL queries using joins, subqueries, aggregations, and filtering for real-time inventory retrieval.
- Integrated database operations with REST APIs using Node.js and Express.js.

Technologies: HTML, CSS, JavaScript, REST APIs, MySQL

Xplorer | Android Trip Planning Application *Android Application*

- Developed an Android application for budget- and interest-based trip planning.
- Implemented expense tracking and trip summaries for travel budget management.
- Integrated MySQL for data storage and data synchronization.

Technologies: Java, MySQL, Android Studio

CERTIFICATIONS

- Learn Advanced SQL Certificate
- SQL at Work Real-time
- Learn SQL

AWARDS & ACTIVITIES

- 3rd Prize — State Level Poster Presentation
- Runner-up — IPSGM State Level Ball Badminton
- SIH-25 Round 1 — Shortlisted
- Documentation Lead — AlgoRhythm Club
